ABOUT US

We believe the best days happen outside. The heart-pounding, high-fiving, sunshine-soaked ones. The ones that start with a stretch and end with a sunset — where you leave it all out there and wouldn't have it any other way.

That's why we created Surface — high-performance sun protection that's built to outperform. No distractions. No excuses. Just serious coverage for whatever the day throws your way.

Surface Sunscreen was made for the doers, the movers, and the sun-drenched adventurers. The ones who move for the joy of it, play to feel alive, and show up for the love of the game — not the spotlight.

With every application, we deliver what matters most:

Performance.

You're performing at your best your sunscreen should too.

Health.

Because sunscreen protects the future you've yet to live.

Happiness.

Because life is measured in memories, so enjoy the journey.

This isn't your average sunblock. This is protection you can count on.

Go ahead — play hard. We've got you covered.

WHY SURFACE

THE NEW STANDARD IN SUN PROTECTION

Exceptional sun protection for those who live life in motion – whether on land or sea. Thoughtfully formulated to be clean, reef-safe, and free from unnecessary additives.
